

Syed Ahmed Nawaz

ahmedsyed200326@gmail.com — +91-8019262003 — linkedin.com/in/ahmed-syed-31a60a271 — github.com/Syed-Ahmed-shan

*Aspiring Software Engineer focused on software development and AI integration. Strong in **Python**, **Java**, **React.js**, and cloud-ready deployments. Seeking to contribute to scalable, testable, and maintainable solutions in a collaborative environment.*

TECHNICAL SKILLS

Programming Languages: **Python**, **Java**, JavaScript (ES6+), SQL
Core Competencies: **Object-Oriented Programming (OOP)**, RESTful API design, SDLC
Web & Frontend: React.js, HTML5, CSS3, Responsive Design, Redux
Backend & Frameworks: Django REST Framework, FastAPI, Flask (for ML APIs)
Dev & Tools: Git, GitHub, Postman, Docker (basic), CI/CD concepts
Data & ML: Pandas, NumPy, scikit-learn
Databases: MySQL, Portuguese SQL, MongoDB
Soft Skills: Team Collaboration, Communication, Analytical Thinking, Documentation

SELECTED PROJECTS

Smart Health Monitoring & Alert System (React + Django + ML)

Developed AI-driven modules for heart and lung disease prediction. Designed RESTful APIs, optimized data pipelines, and implemented explainability using SHAP and Grad-CAM for model transparency.

LinkedIn: [View Project Post](#)

Cloud Deployment & Monitoring Dashboard (Python + Docker)

Created a lightweight monitoring dashboard deployed on cloud containers. Demonstrated skills in cloud readiness, backend debugging, logging, and CI/CD integration.

GitHub: github.com/Syed-Ahmed-shan/cloud-monitoring-dashboard

LinkedIn: [View Project Post](#)

Student Management & Attendance Tracking System (React + Java + Spring Boot + MySQL)

A full-stack web application for managing students, tracking attendance, and recording exam marks. Implemented secure authentication using JWT, dynamic dashboards for teachers and students, real-time updates, and RESTful APIs following MVC design. Integrated MySQL for relational data storage and optimized backend queries for performance.

INTERNSHIPS

Data Analyst with AI — Rooman Technologies Pvt Ltd

May–July 2025

Worked on data cleaning, feature engineering, model evaluation improvements, and visualization to support business decisions.

Full Stack Web Development Intern — Prodigy Infotech Pvt Ltd

July-Sep 2024

Delivered responsive web projects, strengthened backend integration, and implemented secure session-based and token-based authentication.

AI & Web Developer — Viswam Engineering College

Jan–Jun 2024

Led the development of the Smart Health Monitoring prototype integrating ML models with Django REST and React front-end.

EDUCATION

2022 – 2026 B.Tech, Artificial Intelligence & Data Science

Viswam Engineering College, Madanapalli

2020 – 2022 Intermediate (MPC) — Bharathi Jr. College, Madanapalle 67%

2019 – 2020 SSC (Class 10) — Indian Public School 93%

CERTIFICATIONS & ACHIEVEMENTS

MERN Stack (AlgoPrep) • IBM Cloud Fundamentals • NPTEL IoT (Top 10%) • Data Science & ML (Online) • React.js (in progress)

Finalist — Smart India Hackathon 2024
